Muhammad Abdulsalam

Toronto, ON • salammiam16@gmail.com • 6475093150

Summary Of Qualification

- Pursuing a Software Engineering Diploma with a strong emphasis on web development.
- Proficient in front-end technologies, including HTML5, CSS3, JavaScript, and responsive design.
- Experienced in creating interactive and user-friendly web interfaces that prioritize user experience (UX).
- Familiarity with back-end technologies like Node.js and Express.js, enabling full-stack development capabilities.
- Proven ability to troubleshoot and debug web applications, ensuring optimal functionality.
- Strong problem-solving skills and a passion for tackling complex coding challenges.
- Exceptional teamwork and communication skills, fostering effective collaboration on group projects.
- Keen interest in staying updated with the latest web development trends and emerging technologies.
- Committed to delivering high-quality web solutions that align with client and user expectations.

Technical Skills

Programming Languages- C#, Python, Java
Web Technologies- HTML5 & CSS3, Javascript (Node.js, Express.js & Angular), RESTful APIs.
Operating Systems- Windows, Linux/Unix, Oracle/SQL Server
Others- Agile & Scrum Methodologies, Shell Scripting**.**

Related Work Experience

Freelance Front-End Developer   Oct. 2023 –Present
- Developed responsive user interfaces using HTML, CSS, and JavaScript, ensuring seamless and visually appealing web experiences.
- Employed best practices to enhance front-end performance, optimized website load times and responsiveness for diverse browsers and devices through efficient coding and asset management.
- Collaborated closely with design teams to integrate design concepts, translating mockups into functional web elements while maintaining design consistency.

Other Experience

Security Gaurd   Jun 2021 – Sept 2022
Proton Security Services Ltd. Lagos, Nigeria

- Monitor and control entry points, allowing authorized access while preventing unauthorized entry.
- Conduct regular patrols to ensure a secure environment, detecting and deterring potential security threats.
- ·Quickly respond to emergencies by following established protocols and assisting in maintaining order during crisis situations.

Education

Centennial College
Software Engineering Technician, Diploma.   Sept. 2022-Dec. 2023
Relevant Courses:

- Programming I, II & III
- Software Engineering Fundamentals
- Client-Side Web Development
- Java Programming
- Web Application Development
- Software Systems Design

- Software Requirements Engineering
- Unix/Linux Operating Systems
- Advanced Database Concepts
- Software Development Project I
- Software Testing and Quality Assurance
- Developing UI for Software Devices

Academic Projects

Ecommerce Website for pre-owned products (Group Work)
- Developed a responsive and visually appealing user interface with Angular and typescript to provide an engaging user experience.
- Built a server-side application with Express and Node.js, handling data processing, user authentication, and database interactions to ensure seamless functionality.
- Designed and managed the MongoDB database, including schema creation, query optimization, and data integrity maintenance.
